People who have read books such as " If you give a pig a pancake" to their kids will enjoy this adult version. Its pokes good fun at not being as young as you were. About the AuthorPhil Newton needs a real job. Here's the thing...He loves to write. He's working on the next great american novel, but for now he will settle for the next great american bathroom reader. Wish him well. J Edward is a teacher, a philosopher, a theologian, and this is the most sophisticated book he's published. William Adams is an

architecture student at the UK College of Design and does a little bit of everything. He's young, restless, and overconfident.
