Disappointing...By crystal EatonThis book was far from what I expected. The authors were really reaching too far and I feel they were not as realistic as they should have been. If you want to read ann adult book that will make you laugh I suggest you order Go the F\*\*\* to Sleep.9 of 10 people found the following review helpful. Wish I could have gotten my hands on this book BEFORE purchasingBy NHgall bought this for my sister and brother-in-law for Christmas because the title seemed like the book would be something they would appreciate. The content just wasn't what I was expecting. I could see how some might think it is very funny, but it really wasn't relatable. I ended up not giving it to them for Christmas and just gave

it to them ahead of time. I wish I had checked it out at the local bookstore before making a hasty purchase. The title was the funniest part!

Before they Go the Fuck to Sleep, they need to Shut the Fuck UpIf you give a kid a cookie, will he shut the fuck up? That is the question at the heart of this hilarious, deeply honest, profanity-laced book for parents who will do whatever it takes for a moment's peace. What really happens when you give in to your child's tantrums? The events that follow this seemingly simple act will test parents to the breaking pointwhile entertaining the millions of us who have been there ourselves (and lived to tell). Also a cautionary and instructive tale for new parents, If You Give a Kid a Cookie, Will He Shut the F\*\*k Up? is a must-have for every family library collection. Just keep it on the top shelf.

Finally adult themed depictions of children I can enjoy without getting my computer confiscated...again.
