**Mr. Jeremiah E Hoppe : Illuminated Worlds : Fantasy** before purchasing it in order to gage whether or not it would be worth my time, and all praised Illuminated Worlds : Fantasy:

This book was inspired my medieval illuminated manuscripts. They were made by hand and had painstaking details and designs. I decided to combine this idea with illustrative ideas. Through this I hope to bring a unique challenge to avid colorists and newcomers alike. While also illuminating the worlds Id like to explore. I hope you enjoy this book and go on this journey with me.
