I loved that as I "chose my own adventure", a new option or obstacle presented itself. And as days have passed and choices are made, I still haven't seen all that this book has to offer. This reveals a bigger picture that, maybe I need to make some new choices and take some chances in my every day life. I appreciate the humor depicted in every day life or making seemingly simple choices and were that can lead

you. What's really funny is that I see myself as a social person, but with every path I choose, I avoided people at every turn. Now I wonder, is that what I do in real life?! Favorite Quote: "Hit the snooze button you know you want to" - pretty much how I start EVERY DAY This book cracked me up. I love the subtle gems of humor, the illustrations, and the nostalgic feeling of reading a "choose your own adventure" book. IN A DAZE WORK would make a great gift for friends who enjoy office humor, friends stuck in the daily grind, and friends who just need a good laugh. 0 of 0 people found the following review helpful. Bringing humor and sly self-reflection to the humdrum details of adulthood, this relatable visual journey will help you find the extraordinary (or at least hilarious) moments in any day of the week.
