Jana Catania : Snowballs before purchasing it in order to gage whether or not it would be worth my time, and all praised Snowballs:

0 of 0 people found the following review helpful. Merry Christmas To YouBy QHave you ever wanted to color but hate SpongeBob or Frozen? Then this is for you, filled with fantastic artwork (minus the color of course) and wonderful words to live by. Snowballs is great for older teens and adults who think outside of the box, and if you're like me color outside the lines and just don't give a s***. I can put down my phone and interact with something real, de-stress after a long day of dealing with work, bills, and life in general. As a bonus leaving it sitting on the coffee table is a great conversation starter. Don't just get one, get two or more because when people see your Snowballs they'll definitely want some for themselves.0 of 0 people found the following review helpful. A Wonderful GiftBy CustomerI already new how much I was going to love snowballs, but I didn't expect my dad to go CRAZY over this book. He spent an hour giggling, flipping through the pages like a schoolboy. Hilarious, twisted, and a great price for

the huge number of laughs delivered. I recommend this product to anybody-- it'll be the perfect stocking stuffer.0 of 0 people found the following review helpful. Naughty-Twist on Christmas to ColorBy R2W2For adults who like to color. This is a fantastically and creatively rude, crude, and often sex-themed collection of silly pages to color. It's a naughty twist on Christmas. Not for children or the easily offended.

FOR MATURE AUDIENCES. Some coloring books require skill. Some coloring books require understanding complex design. Some coloring books demand your commitment on the same scale of marriage. This coloring book demands none of that! Snowballs: The Coloring Book is a humorous look into coloring the dark side of Christmas and redefines what an adult coloring book is. Poop, binge drinking, meth, punny-but-deadly bears, crosswords, cookies, horny animals, free floating heads, and Christmas pears! That's what you'll find in this book and more as the Snowballs is guaranteed to help melt the stress away with laughter.
