And creepy. And AWESOME. In other words, it's totally my thing. If you like things that are offbeat and fun and funky, this is a great find. Plus you get to support an indie author and indie publishing house and... well, that's always great! Definitely check this baby out if you dig cute and/or creepy. 6 of 6 people found the following review helpful. **Zombies and Cats? Yes please.** By Elia in a Box Studios Seeing a coloring book that doesn't seem like a generated tessellation or intricate stressful design is a huge breath of fresh air. This coloring book not only makes coloring more relaxing (but who knew that coloring could be stressful in the first-place. HA!) but it's cats and zombies. What more could you ask for? Good to see independent creators make something that isn't typical flowers or stars. This is my kind of coloring book. 4 of 4 people found the following review helpful. **For everyone who likes undead feline fun!** By M. C. Morrison If you love zombies or cats, you should consider buying this. If you love zombies and cats, you should seriously consider buying this. If you love zombie cats, you should definitely buy this!

A humorously twisted new take on coloring books. Halo Sama did this book in only 24 hours as part of 24Hr Comic Book Day. She also has Fibromyalgia so this book is a perfect example of how one can overcome their chronic illness and be entertaining while doing it.
