Gut-Bustin' FunnyBy Amy JIf you watch The Daily Show... if you read The Onion... if you crave devastatingly hilarious, over-the-top humor... get this book. The side-splitters-per-page ratio is on a par with Jon Stewart's America (The Book). This book may not be as lavishly illustrated, but don't let that fool you. This is a must-have!0 of 0 people found the following review helpful. McCain and Obama and YOU should

read this book. By M. Scheld I loved this book. It made me laugh... and really... what else can you do but laugh given the current state of our government and its politicians. It's pretty darn good.

In theory, there are only two qualifications needed to run for President of the United States: you should be 35 years of age and a natural born U.S. citizen. But what else does one need to be a contender? Whether you're an elephant or a donkey, or whatever animal may be associated with an independent candidate, this book is the key to finding out if you're cut out for the job. *So You Want to Be President?* Takes you from choosing your party affiliation, through the primaries and ultimately to the general election. Along the way quizzes, tests and obstacles test your presidential mettle. In the back of the book is a handy scorecard for readers to track their progress toward 1600 Pennsylvania Avenue.
