Your stomach will hurt from laughing so hard.By IsabelleI almost never take the time to write reviews, but in this case I had to. This collection of essays is, in a word, hysterical. If you happen to be able to relate to growing up in an Italian-American household, especially if it is anywhere in or around New York City, then you will probably do things like burst into laughter while standing on line at the bank because you are thinking about one of the "wise guy" essays you read earlier that morning. I was going to give this book to my dad, but it has actually improved my health so much in just a few weeks (you know, laughter is the best medicine) that he's going to have to settle for having me read parts of it to him over the phone, at least until I order another copy for him!0 of 0 people found the following review helpful. Hysterical On PointBy A. SeiseBill Ervolino is a master craftsman with his pen, and like his columns in the Bergen Record, this book is filled with anecdotes and dialogue that will have you rolling on the floor with laughter. Highly recommended to anyone who likes light, family-friendly giggles, particularly those who share Ervolino's geography

and heritage. Enjoy!!!
