Hilary Hodes : Something's Amiss in My Uterus before purchasing it in order to gage whether or not it would be worth my time, and all praised Something's Amiss in My Uterus:

0 of 0 people found the following review helpful. Hilariously educational By swichi293 This book is quite possibly the most educational and humorous pregnancy book I've read. It's chronicles the author's first pregnancy in a narrative of hilarious poems with even funnier illustrations by her husband. This is a great book to buy if your having your first baby, but if you're looking for a baby-shower gift it's practically a necessity. Seriously, buy this book. 0 of 0 people

found the following review helpful. Wonderful and Entertaining!By A CustomerI laughed so hard I peed a little! This book is so VERY true, so VERY funny, and really helps make the experience of pregnancy easier on the mother-to-be. I've been pregnant for 8 months now (feels like 8 years) and I wish I'd had this four months ago! Thank you, Ms. Hodes, for such a wonderful gift for mothers everywhere!(In case you don't catch my drift by now, I highly recommend this book if you know someone who's pregnant or have been pregnant yourself. You'll love it!)0 of 0 people found the following review helpful. AWESOMEBy A CustomerEven though I do not have children yet - I purchased this book for a friend. It was absolutely marvelous! I could not quit laughing and thinking at the same time how true it was after watching all of my friends go through the process!! I will definitely purchase additional copies to put with my shower gifts and go back and read it again when I decide to finally have children! I especially liked the work references!
