The limericks are hilarious, and it even includes a tutorial on how to write limericksIt has 26 limericks in it, plus one limericks in the tutorial. They are all at least relatively funny, and very well-written.I have only found one drawback: there aren't enough of them! I wish he had more limericks in this book. However, I am currently pursuing the mystery of whether or not this author has any other books of limericks.Highly recommended. A great book.
