**P.J. Hermanson : Soular Eclipse: Searching for light in Dark Times** before purchasing it in order to gage whether or not it would be worth my time, and all praised Soular Eclipse: Searching for light in Dark Times:

Are we really alone? A couple is out of work and in despair. Gradually they realize God is sending help through a band of misfit angels from the Heavenly Happy Hour Bar: Larry Libido, who holds their marriage together; Attila the Honey, who sprinkles sleep dust on them; Flit, who takes ADD meds; Rookie, who saves them from a rattlesnake, and

Transit, the Angel of Death. As the couple searches for light and dark times, they discover that life is a drama played out on two stages: on Earth where we fight fear, and the invisible realm of Heaven where angels battle on our behalf. This wacky, touching story will bend your mind as you bounce between two worlds...and find light for your life. Includes ideas to throw a Soular Eclipse party and discuss the book
