Southern Blooms will help you relax with it's soothing drawings for you to color. Bird lovers, animal lovers, nature

lovers, plant lovers, nature lovers, and gardeners, especially, will appreciate Kim's attention to detail. The book is hand illustrated offering a variety of birds, florals, and nature from the South. Kimberly drew in two different styles in this book. Solid line, and also ink sketches where she was able to be freer with the work and add in lines and gray scale for shadowing. Graphic design programs were used to create the repeating pattern pages from the hand illustrated art. She worked in some realism, and some whimsy but most of all she wants everyone to sit back and relax and have fun coloring these pages! Kimberly Anderson is a multi-talented gifted artist and some of her other work is in galleries in Western North Carolina. We are thrilled to offer to the public this coloring book of 50 drawings. Every other page is left blank of drawings to make it easier to color and so your pens or paints won't leak through the paper. This book is available as either a right-handed or a left-handed coloring book. Please check out website: [www.storiesforpublication.com](http://www.storiesforpublication.com)
