It has different levels of coloring in my opinion and some can be made more detailed or easier as you want. I am still very much a beginner but I really like that fact.10 of 11 people found the following review helpful. I have volume 2-4 and there is a good variety to color. I think a young person or teen would love these books. This is one of the few books that I've seen to depict varying ethnicity. The pages are not perforated.1 of 1 people found the following review helpful. Beautiful art workBy wolfBeautiful art work. Not to busy and easy on the eyes. This is what I have been looking for in a coloring book. Package was the right size and the books were in great condition. I would defiantly recommend these books to any one that has the problems

of a weak stomach and can not handle mandalas or anything really busy. She has beautiful art work and very detailed.
