To boldly go where no cat has gone before By iiiireader This is the perfect small size book for anyone who is a cat lover and a fan of Star Trek. The author/artist has presented a series of vignettes from the original series with cats representing the crew. I especially appreciate the breeds of cats she has chosen for this book. From the ginger-colored American short hair (Kirk) to the Scottish fold (Scottie) to the lovely Russian blue (Chekov), each cat wonderfully matches the looks and personalities of the crew members. The book is a hardback in a smaller size (6.75 x 6.75 inches) and is a fairly slim volume. Each scene is from an episode with quotes on the page. It is surprising how fantastic the concept of cats as crew works. At the end of the book, there is a listing (by book page number) of the episode name, season and episode number. The book is a fun purchase and would make an excellent gift. I could only wish it was longer with even more scenes represented – or maybe there could be a second volume. I would love to see other TV series parodied in this way as well. 14 of 15 people found the following review helpful. Perfect for the cat and Star Trek fan alike. A natural go together. By Auntie Ane's Attic I am a huge fan of Star Trek TOS. I love cats. This book was a natural go together. The references to the shows with cat cartoon graphics is genius. Easy to read for the rookie Star Trek fan or a fun challenge for the die hard. The cats are in various

"scenes" and the challenge is to remember the name of the show, like "City On the Edge of Forever," or "Mirror Mirror." The cats they chose to represent the various characters, Kirk, Spock, McCoy, Scotty, Uhura, Sulu, etc are spot on. The book is a lot of fun and I was giggling from the beginning to the end. The names of the shows are revealed at the end so you can check your "score," and go back and try again. Kids will enjoy the cats and adult fans of all ages will enjoy the show references and subtle humor. 5 STARS! Loved this so much I bought another one for a gift for my golden years aunt. She loved it as well! She read it to her cats.... LOL

"Set phasers to furry because these two felines are boldly going where no cat has gone before."-Mashable" is it too early to state that this book is possibly the quintessential Christmas stocking filler for the lover of Star Trek AND cats in your family?"-Starburst Magazine"Featuring big, bold artistic interpretations of many a famous Star Trek scene, except with, well, uh, cats, the book is rewarding for both an episode-quoting Trekkie and your favorite crazy cat lover. And if you happen to be both of those things, it's most certainly an item you will want to add to your collection."-TrekCore"If you're a fan of both cats and Star Trek, I can't recommend Star Trek Cats enough. It's one you'll page through time and again. The more you look at the illustrations, the more details you'll notice. And you'll be sharing your favorites with those around you. The mix of two forms of beloved popular culture here just works. Normally "Star Trek"and "adorable" don't combine, but they do so masterfully in this book. Giggles and sounds of "awwww" will abound ..."-GeekDad"Jenny Parks is a great illustrator. The way she has captured the characters and a variety of our favorite aliens while making them inhabit very feline traits is superb and delivers a many good laughs.
