By Obi-wan 'BEN' Kenobi Since the days of the week for 2015 align perfectly with 2009, I figured why spend a lot (\$15) on a new STAR WARS calendar when spending only a few bucks for an older calendar that works the same way. Now with Google calendar, I don't mark up my hanging wall calendars anymore, so I can also save this and put it away for the last ten months of 2020 and it will fit perfectly for all of 2026. 1 of 1 people found the following review helpful. Great Star Wars calendar By Richard Daystrom item reviewed: Star Wars: The Clone Wars 2009 Calendar 994078 I've never reviewed a calendar before, but I really enjoy the visuals on this SW offering. Bright, rich, vivid colors to lighten one's mood in the morning. The characters are large and can be clearly seen from a good distance away, which is nice if you have it up at work where I do. Several images of classic SW characters to please even the original-trilogy fans: Jabba, C-3PO, R2-D2, Yoda. The wood-sculpted look of Count Dooku is nicely presented too. A happy purchase to brighten even this most-jaded Star Wars fan's day! 1 of 1 people found the following review helpful. Really Nice! By A Customer Not only is this a practical item to help you sort out your schedule, Star Wars fans get a surprise from every page! The pictures on this calendar consist of one character per month. (Except for the Hutts, which has Jabba, Rotta, and Ziro on the same page.) For each month there is a large picture of the character and three small pictures. Also, there is a list of information about the character pictured. This calendar has vibrant colors and is a nice addition to any Star Wars collection.
