The Queen [of Twitter] : Still Reigning: Thoughts of a Queen before purchasing it in order to gage whether or not it would be worth my time, and all praised Still Reigning: Thoughts of a Queen:

2 of 2 people found the following review helpful. From the greatest head of state ever...By C. ThwaitesThe daily musings of the greatest monarch ever (please note, come Honours time). It is hard, as a subject of Madge, to write a review, humble commoner as I am. But, The Queen, pens her penetrating and incisive thoughts on politics, politicians, reigning, family and beverages.She has known every Prime Minister since Disraeli. Every President since Harding.

Every head of state since Nehru. Sometimes exasperated. Sometimes mildly critical. Always serene. Anecdotes are wonderful and allow us a glimpse into Buckingham Palace life that few, other than a few rogue chums of Harry, have seen. I particularly enjoyed the Freddie Mercury/Absinth story, which shows, above all, her wonderful sense of timing. The corgis are mute judges on the coming and goings of heads of state. Not giving anything away, but you will now understand why Obama wears ankle protectors and Hollande insisted on serving the Pernod himself. She is Queen of 140 countries. 141 if you include Canada. So most of us are subjects. And those who aren't wish they were. We are fortunate that she has shared her private thoughts with us. She graciously explains why, when America finishes with its truculent republican experiment, she may consider taking it back. Please buy this book. Osborne has been stingy lately. She is going for the record set by her great, great grandmother of 63 years. So mark your calendars for February 6th 2016. Gin up. 1 of 1 people found the following review helpful. Not as good as Gin O Clock By Ann Dowling Loved Gin O Clock but very disappointed with this book. Basically a rehash of GoC with tweets and blog bits added. Just buy GoC and give this one miss. 1 of 1 people found the following review helpful. And making a d---d good case at that By Wm. Making the case for the divine right of kings and absolute monarchy. And making a d---d good case at that.

Sixty years on the British throne. It's been a challenge, as @Queen_UK doesn't mind telling you. But despite it all, she's still here. Still in charge, still iconic, and still keeping the gin industry in business. Still reigning. In this uproarious collection of musings from a matriarch, the Queen [of Twitter] shares some unvarnished opinions about her subjects and the rest of the civilized world. Of her adoring public across the pond in America, she notes, "One thinks of them as a mother thinks of a teenage boy; with a mixture of pride and exasperation." Witty and insightful, Yes Ma'am is a glimpse inside the mind of Britain's pop monarch.

About the Author @Queen_UK has been the undisputed queen of media since May 2010. She has written widely for some of the biggest media outlets and has an online reach of well over one million people.
