It's an easy and often fun read--I couldn't put it downBy CustomerWill Meyerhofer has his fingers on the critical emotional and practical problems specific to the legal profession. His in-depth knowledge as both a therapist and former big law associate uniquely qualifies him to identify, explain and offer solutions to the impact of anxiety and depression on the legal profession. But Will's humor and

positive outlook is evident throughout the book. It's an easy and often fun read--I couldn't put it down! I am always amazed by how much I learn about myself from Will's observations about his own life and clientele. He writes about these issues in a practical, easy-to-understand method. This book is a must read for anyone who knows a lawyer, has hired a lawyer, works with a lawyer, or just wants to understand them better!2 of 2 people found the following review helpful. Lawyer ApprovedBy CustomerI work in a "top 10" biglaw firm in New York City and have to say, this book and its prequel, as well as "Life is a Brief Opportunity for Joy" should be required reading for anyone contemplating law school. Or frankly for anyone who feels stuck in biglaw and is trying to figure out how they got there and what to do next.However, Will's writing style is so highly entertaining that I think anyone who has worked in a Dilbert-style corporate job would enjoy the book. I generally don't laugh out loud reading (maybe has something to do with what I generally spend my days reading) but I laughed out loud numerous times reading this book and its prequel.2 of 2 people found the following review helpful. Keep on writing, Will - this stuff is cathartic.

Just when you thought it was safe to go back to law school....It's the return of Way Worse Than Being a Dentist! Will Meyerhofer is back, and the question sort of asks itself: Has anything changed since the publication of his original runaway best-seller? Find out in this sequel, "Still Way Worse Than Being a Dentist," his all-new collection of reflections, pontifications and pensees on all-things-legal, drawn (mostly) from the pages of AboveTheLaw.com (and if you're still wondering about that self-asking question...There's a clue in the title.) Meyerhofer will make you laugh. He'll make you cry. But you can't go wrong. Trust him, he's a lawyer."
