Too bad that the Photoshopping in a few of the images is rather amateurish, but it doesn't diminish from the beautiful photos of nature that constitute the real heart of this book. I love it! When I get tired of words, this is the first book of images I pick up to send my mind to a different dimension. Many thumbs up!12 of 12 people found the following review helpful. Extremely satisfied!By SarahbThis book is very funny and amusing. I would recommend it to any kind of person who likes psychedelic colors and unusual associations of image. Great experience!0 of 0 people found the following review helpful. but my friend likedBy Sebastian Eschmannkind of weird, but my friend liked it

Have you ever really looked at a book? The state of being high rewards deep attention, and lots of things can seem really, really interesting. It might be a spot on the ceiling, or an oddly-shaped tortilla chip, or a bit of wood grain. But why settle for staring at the coffee table? What if there was a book on that table specially created to amaze and delight pot smokers and their friends? This highly entertaining collection of images is the ultimate centerpiece and conversation starter. Featuring dozens of immersive, trippy, funny, meditative, and mind-bending images, each page offers a new visual world of wonder that everyone can enjoy especially those living the high life
