These guys are cynical, sarcastic and have more insights in modern workplaces than most business consultants. If only we could buy these products--coffee mugs with your six-figure salary emblazoned on it and other ego-pumping products. It reminds me of the Alex Baldwin character in Glengarry Glen Ross, who plunks his Rolex on the desk in front of some loser colleague and says "Who am I? This watch cost more than you earned last year, that's who I am." This book reminds me of when I got my first job in the early 90s. My predecessor cleared out the bookshelf and left only Dilbert's "How to Build a Better Life By Stealing Office Supplies," which turned out to be the best sources of career advice I had. Now, as I'm preparing to clear out of an office, I think I'll leave the Stooples book to my successor...2 of 2 people found the following review helpful. Office Workers of the World - Unite!By J. P. FoxIf you ever wondered why your company didn't issue you a survival guide, stop wondering. Here it

is. Subversive. Full of invective. Funny. Wry. Witty. Stupid. I mean Stooples. The catalogue of necessary office supplies to survive the day at work. Want a pat on the back? Look no further than Stooples. Looking for something for that annoying boss? Stooples here. National Lampoon meets the Idiot's Guide to Office Life. What George Orwell would have written if he had known how to use a computer, camera and copy machine. Full of great gift ideas: the Blackbury - so death doesn't do you apart. Get Stooples for all your office mates. Get Stooples for your boss. But best of all: get Stooples and give it to the boss when you go in to quit. Stooples is, as Stooples does. 1 of 1 people found the following review helpful. What a hoot!! By Brian Ward First there was Dilbert... funny, yet so close to the truth! Now comes Stooples: Office Tools for Hopeless Fools. I got hold of a copy, and I haven't let go or stopped laughing since! It's essentially a table top book, although if you leave it on your corporate reception area table, it WILL disappear. Same for the washrooms. At only \$12.95, cheaper at , for this 128 page full color parody of an office supply catalog, it's well worth thinking about it as a Christmas stocking stuffer, your office gift exchange, or as a give-away at your office holiday bash. The authors will be on tour throughout the US in October and November just to make sure you got their message. You were warned!

Sick of the absurdity of today's office? Ready for a delightful satire that highlights the often infuriating, sometimes pathetic, and always ridiculous nature of office life? Check out Stooples! Stooples is the only company to win the coveted Most Soup Stains on Manager Ties Award for the third year running. This catalog of Stooples's most prized products has won the coveted Golden Yak Award from the Outer Mongolian Book Reviewers' Association. Whether you're interested in purchasing fluorescent-light tanning butter (put that cubicle lighting to some good use), wall murals of the Great Depression (remind employees who really controls the means of production), or anal-retentive pocket planners (map out your day five minutes at a time), Stooples will have you laughing out loud in the office, the shower, or the annual meeting of the Mongolian Yak-Herders Association. "We want our advance money back." ---St. Martin's Press "Excellent reading while crossing the Delaware." ---George Washington "I thought it was something to eat. Please pass the popcorn." ---Roger Ebert "Not as fun as self-stimulation, but titillating nonetheless." ---Dr. Ruth Westheimer
