By Linda T. Elizabeth Severino is a fraud. She is a master of reading people and telling them what they want to hear. She is a master story teller and in my personal experience has no real talent. I attended one of her events and watched how she played the audience. We all brought photos of a pet we needed to communicate with (some past, some present). Elizabeth "cherry-picked" those who she wanted to read for and I thought those she picked were the most desperate to hear something and thus clung to her every word. Those same people also disclosed a lot of information while she was "communicating" making it even easier for her to continue the charade and build a story. What she spoke about for a particular animal was no more than the typical characteristic traits appropriate for that animal and elaborating on what the owner was disclosing. When she did pick someone and they indicated something was not fact she quickly moved on to the next person only spending time with those who supported what she was saying.

By Lee K Wolf This is a collection of some of the most beautiful, wonderful and heart-warming stories you will ever hear. Dr. Elizabeth has shared these with the knowledge that they are very healing for all concerned. Some of the people involved were so touched that she was going to share them - that they wanted to tell their stories in their own words - and did so. I loved them so much that I needed a tissue box nearby while listening to them. Truly amazing and beautiful!

Delightful, heart-warming, inspiring, magical stories from one of the top animal communicators in the world! This first 2-CD set of *Stories* begins over 20 years ago with the newly-professional telepathic interspecies communicator,

Elizabeth Severino, having no idea what to expect. How will animals she's meeting for the first time, feel about speaking openly with her? Will an animal ever refuse to talk to her? How will she manage what and how she tells the people, from all that the animals have to say? Will the animals continue to be open to her and to teach her? The stories are filled with warmth, humor, pathos, drama, and Elizabeth Severino's love of animals and sweet appreciation of and fascination for All Life. Stories from an Animal Communicator is lovingly told by the author, along with K. Scott Teeters, Cat Korman, Mario Pinardo, and numerous dogs and cats, horses and hawks, crickets and snakes, a tortoise, alligators, hermit crabs, and more. 2-CD's. Total running time: 90:15.
