**J. Kevin Morris : Strangely Normal: The Mostly True Tales of an Incurable Oddball** before purchasing it in order to gage whether or not it would be worth my time, and all praised Strangely Normal: The Mostly True Tales of an Incurable Oddball:

Life is often far too serious, but here is evidence that it also looks funny--at least in retrospect. Join Kevin Morris as he recounts some of the detours, bumps, and skid marks he's experienced and made along his twisted road of life. Watch

him challenge theme park rules, share a tennis court with high-profile opponents, stare down robbers and thieves, and even do his best to kill his best friend.
