**Leland Gregory : Stupid Ancient History (Stupid History)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Stupid Ancient History (Stupid History):

4 of 4 people found the following review helpful. stupid history series is Gregory's best By KC Jones For a good bathroom read full of gossipy fun factoids, it's good fun. If you're looking for scholarly-type documentation or a lack of a single error, he's not for you. And some of his post "history" books do feel more shabby, rushed and like a "brand extension" pushed out in a hurry, but the "stupid history" series delivers good casual "factoid" reading reliably. 0 of 0 people found the following review helpful. Funny, Interesting and informative... Loved it... By Customer I gave this book five stars because it deserved it. There were many things about the Greeks and Romans that I didn't know and this book gave me many surprises. It kept me intrigued and entertained for hours. I will definitely read more of this

author's work soon. The other pleasant surprise of this book was its price. It was much more affordable than the bathroom readers that I find repetitive and cost much more money. I highly recommend this book to all trivia lovers out there who enjoy a solid, nicely written and funny book. 0 of 0 people found the following review helpful. Best-selling humorist Leland Gregory offers a blockbuster collection of more than 200 bizarre, weird, silly, shocking, and downright outrageous true stories about ancient Greek and Roman history. New York Times best-selling author Leland Gregory is one of Andrews McMeel Publishing's most successful noncartoon humorists. Silly, shocking, weird, hilariously funny—and outrageously true—the short anecdotes inside his anthologies of human stupidity are culled from print, online, and broadcast media from all over the world. Inside *Stupid Ancient History*, Gregory chronicles Greek philosophers, Roman conquerors, and historic mythconceptions, including: — To fight off Roman ships in 300 BC, Carthaginians catapulted live snakes at them.— The Athenian lawmaker Draco died of suffocation when gifts of cloaks were showered upon him by grateful citizens at an Aegina theater in 620 BC. — In ancient Rome, long before the advent of the Christian Bible, Roman men swore to “tell the truth, the whole truth, and nothing but the truth” by placing their right hand on their testicles. It is from this ritual that we derived the term “testimony.” — Of the Seven Wonders of the Ancient World, The Temple of Artemis in Ephesus burned to the ground in 356 BC. The arsonist was executed; and to make sure his wish for everlasting fame wouldn't come true, it was ordered that his name be stricken from all records and never mentioned again. But people will talk. Despite all efforts, his name leaked, and Herostratus is remembered as one of the most notorious firebugs in history.
