**Wallace Godfrey : Sunfish Starfish: Tropical Drag Queen Detectives** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sunfish Starfish: Tropical Drag Queen Detectives:

2 of 2 people found the following review helpful. A new twist on the mystery hero.By Jim ShogrenAre you ready to jump into the world of drag queen shows? Full disclosure, I've been to Drag Queen Bingo at Hamburger Mary's. But I digress. We have a mystery, political intrigue. How does it all tie together? Where will we end up? What happened in that parking lot? Why are the police afraid to get involved? What is the cost of doing the "right thing"? Not only has

our author written a great mystery story, Wallace has given us an inside look into many different worlds. Why did my suitcase end up in Spokane and not at LAX? How do those entertainers end up on all those cruise ships? Again I digress. Great characters! A grand tour of Miami (I lived there for a year and can picture those images so clearly described by Wallace). If you love mystery stories, if you love well fleshed out characters, if you want a great read not like anything else, this book is for you. 2 of 2 people found the following review helpful. Finally, a good book with air....By Eric LaSalle I have to say that this book had me in stitches; occasional bursts causing me to realize that I wasn't at home alone. Was it the fact that I was on transit and I once got a weird look from the lady listening to her playlist! Sunfish and Starfish, showed their lives as drag queens that was comical, raw and spell-bounding. Wallace Godfrey drew you into their world, weaving and transcending episodes of life, laughter and pain. LOVED every bit of it! Now, all I can do is picture the screen version of this mighty duo and wonder who and what they are going to get themselves into next. Can't wait for the sequel!!!! 0 of 0 people found the following review helpful. it's a fun read and we are left wanting to see what ...By Michael in Mexico As an introduction to the possible start of a series, this first volume accomplishes its goal. What I found missing is a little more depth to the supposed collaboration between Sunfish and Starfish. This introductory volume seems more weighted towards Oscar and what one assumes will be a partnership isn't quite fleshed out yet. But, it's a fun read and we are left wanting to see what happens next.

For lovelorn Oscar, and pragmatic cold-hearted Larry, a beautiful Miami spring has suddenly turned very hot and humid- Two unlikely heroes. Two confounding mysteries. How did a \$1,000 jewel encrusted Prada shoe end up under a dumpster in a back alley in a deserted part of town? And will we ever find out whether the man hiding in the shadows of a South Florida gay bar is really a conservative South Carolina reverend-who's running for Congress? Two fun-loving drag performers are lured out of the spotlight and into some very dark places: the shady, drug-fueled world of Miami's high-society debutantes, and the cutthroat world of national politics. Larry Nussbaum and Oscar Arias (a.k.a Sunfish Starfish) find their campy little seaside life nearly torn apart by intrigue and deception-as well as their own character flaws and hapless investigations. The police refuse to help. Mobs of protestors threaten them and their families. Even their friendship takes a hit. But when they finally try to walk away, they are drawn right back in by events beyond their control and an unquenchable need to find the truth.

"Delightfully campy South Florida mashup..." (Advocate.com -- The 30 Best Books You Missed in 2015)"A fun and fast-paced Summer read that's a little bit off-kilter like your favorite binge watching shows on Netflix..."
