Well done By mutleyFunny, as you would expect from the New Yorker and the cartoons are different from different cartoonists, not repeating themselves. 0 of 1 people found the following review helpful. cartoons By N. Nelson I love the cartoons from the New Yorker magazine. I own several books of these cartoons, and they are guaranteed to bring a laugh.

No need for a second opinion--this collection is a healthy dose of funny. New Yorker cartoonist Leo Cullum found a different way to beat colon cancer: by creating cartoons that poked fun at the medical industry with his all-too-true medical-themed new work, Suture Self. With observations like "It was a rare, but serious, side effect" and "This IS a second opinion. At first, I thought you had something else." you will literally split your sides. This book should be in every doctor's office waiting room. Laughter is the best medicine. No copay required.\* Includes over 100 medical-

themed cartoons that will leave readers feeling great. This is a perfect get-well gift idea.\* More than 800 of Leo's cartoons have appeared in *The New Yorker* since 1977.\* Cullum's work has also appeared regularly in *Barrons* and the *Harvard Business Review*, and has been featured at the Brooklyn Museum of Art.
