Soapy Mouth : Swear Adult Coloring Book: British Swears before purchasing it in order to gauge whether or not it would be worth my time, and all praised Swear Adult Coloring Book: British Swears:

1 of 2 people found the following review helpful. DisappointingBy AngelaI have no complaint with the seller and the item arrived on time (delivered on a Sunday) and was well packaged. For those of us who have taken up the hobby of "adult" coloring, the novel idea of coloring curse words or phrases amidst an interesting and well put together design seemed like fun, and I find British profanity much more a musing than American English. I was very disappointed with this book, about 90% of the drawings were, simply put, bold and ugly. There were a few designs that were clean. Perhaps if the Seller would show a few designs it would allow folks to see what they are spending money on. 2 of 3 people found the following review helpful. Quality of coloring pages is not good. Words are blurry as if from a copy machine. Definitely a knock off product. 1 of 2 people found the following review helpful. Not the bestBy jennifer TalbottConcept is great

but quality is not. All pictures are blurry and off center. Even if they were in focus the backgrounds are awful. Pretty disappointed
