punchline comes as an afterthought. Logan has lots of exercises for generating jokes. It's also good as therapy. Turning positives to negatives and vice versa. I'm rereading it for the 3rd time. By Juan Enrique Varela Creativity techniques explained by Logan Murray are fantastic for enhancing and strengthening the comedian's POV. The book also teaches you with simple exercises that make you better to understand the Stand Up Comedy and how to make a script of jokes. Truly, I recommend it. By Christine Cunningham I'm a budding comedian and my sister recommended that I read a few books to help me along the way. I put her advice on the back burner until I started to read this essential manual for comedy. It's insightful and instantly applicable to whatever style of stand up you partake in. If you're wavering on whether this book is a good investment....waver no longer. BUY IT!!
