Serhii Kucher : Tents - 250 Easy to Medium Puzzles 6x6 (Volume 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tents - 250 Easy to Medium Puzzles 6x6 (Volume 3):

Tents ("Tents and Trees") is a logic puzzle invented by Léon Balmaekers (Netherlands). The task is a grid of squares, some of them contain trees. The goal is to place tents in some of the remaining squares, in such a way that the

following conditions are met: There are exactly as many tents as trees. The tents and trees can be matched up in such a way that each tent is directly adjacent (horizontally or vertically, but not diagonally) to its own tree. However, a tent may be adjacent to other trees as well as its own. No two tents are adjacent horizontally, vertically or diagonally. The number of tents in each row, and in each column, matches the numbers given round the sides of the grid.
